

Dear Rink Operator,

I would like to introduce you to the JamSkate Academy Program, a revolutionary online video platform that will transform your rink into a hub for Jam Skating excellence.

With the JamSkate Academy Program, we're pioneering the way for rink owners like you to introduce the art of Jam Skating to your community. Here's how our program can benefit your rink and skaters:

Getting started is a breeze, just download the JamSkate Academy App, assign a dedicated instructor to your JamSkate class and skaters can begin to register for your class through the app.

The JamSkate Academy Program is a dynamic learning experience that allows skaters to progress at their own pace. Skaters will submit videos showcasing specific skills they've learned, enabling personalized progress tracking. Your dedicated instructor will review submitted videos and mark skills as complete, ensuring accurate evaluation. As skills are mastered, skaters advance to the next level, unlocking new challenges and opportunities for growth. For rink owners, our platform offers the ability to register new students, track enrollment dues, and communicate effortlessly with students and other teams.

We understand the challenges you may have faced in the past:

- Low turnout at Skate events? Our program ensures a pipeline of skilled skaters through structured classes.
- Lost interest in classes? Our network of teams and coordinated events keep skaters engaged and motivated.
- Mixed skill levels? Our lesson plans unify skill levels, allowing everyone to progress together as a cohesive team.

For more information on how the JamSkate Academy Program can transform your rink, please visit us at JamskateAcademy.org. Let's take the first step towards a more vibrant and thriving JamSkate community together.

Skate on,

Chris Gehret
President
Jamskate Academy Corp

JAMSKATE ACADEMY

About Us

The Jamskate Academy has been dedicated to teaching youth rollersports since 2010. Our program is designed to provide a turnkey solution for teaching jam skating at your rink and to give rink operators the opportunity to generate revenue through both skate sales and hosting events.
